

NEU: A Catalyst for Expediting the Acceptance of Technologies for Low-Carbon Concrete

Dr. Charles Nmai, PE, FACI
ACI President, 2022-2023
NEU Board Member

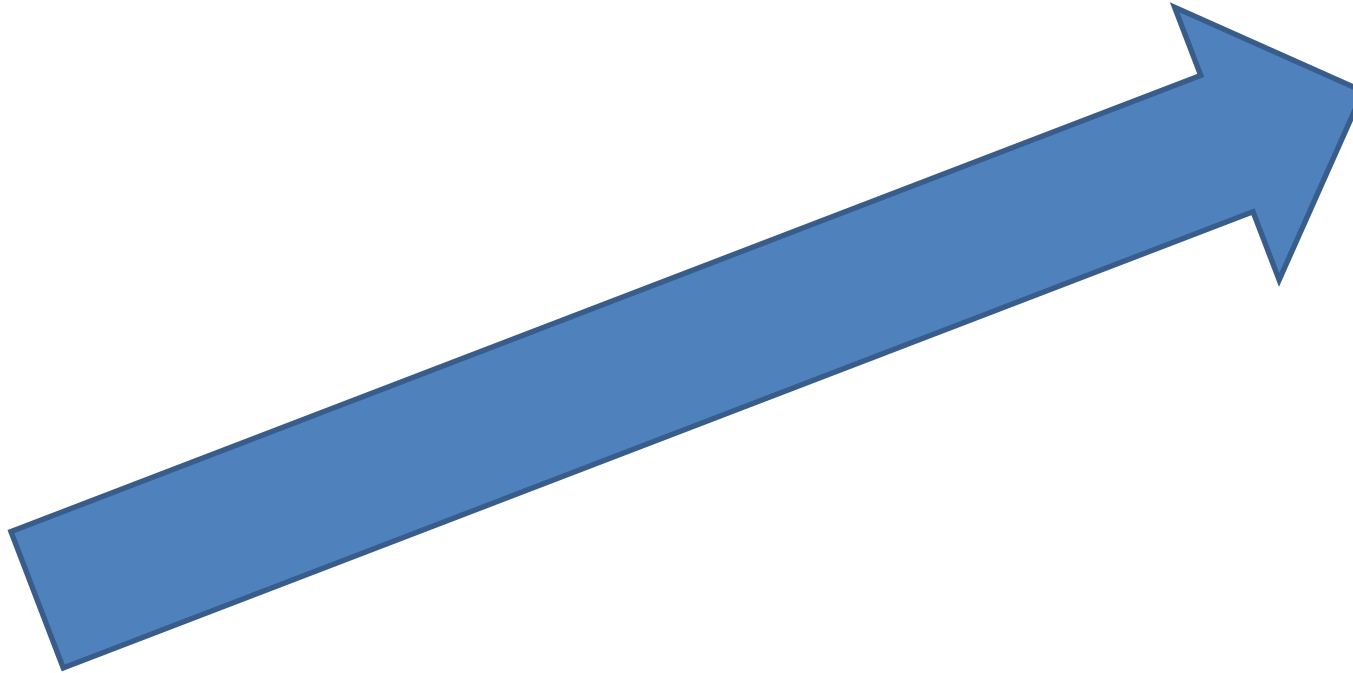

Review of Current Process to Adoption / Acceptance

**Expediting the Acceptance / Use of
Qualified New Technologies for the
Built Environment**

Technologies for Low-Carbon Concrete

THE WORLD'S GATHERING PLACE FOR ADVANCING CONCRETE

Core Functions of NEU

- **Technology Validation / Verification Program**
- Technology Transfer and Professional Development
- Advocacy and Technical Support
- ACI Committee Assistance
- Technology Acceleration
- Development of Research Projects
- International and Student Outreach

ACI & NEU have the experience and breadth of expertise needed to help accelerate the adoption & use of technologies for the built environment.

NEU is uniquely positioned to become the catalyst for expediting the acceptance & use of technologies for low-carbon concrete!
